Professional frontend developer and user interface and experience designer, passionate about building web and mobile solutions that are beautiful, inclusive, functional and aesthetically pleasing.

Work Experience

FRONTEND ENGINEER

Flutterwave - Lagos, Nigeria

June 2019 - Present

Flutterwave is a payment technology company that helps banks and businesses build secure and seamless payments solutions for their customers. I work as a front-end engineer on the Barter Team.

SOFTWARE ENGINEER

Summitech - Lagos, Nigeria

April 2017 - June 2019

Summitech Computing Limited is a software development company that develops web and mobile solutions. I worked as a front-end engineer; responsible for building websites, web and native mobile applications.

WEB DEVELOPER

Brande Aristotle - Lagos, Nigeria

April 2016 - March 2017

Brande Aristotle is a marketing and digital advertising agency. I worked closely, as a full-stack developer, with a diverse team of copywriters and product designers to develop websites and content management systems. I juggled these with product management and IT support.

SOFTWARE ENGINEER

Schoolbridge Technologies - Lagos, Nigeria

January 2014 - October 2014

Schoolbridge Technologies is a software development company that develops education, management and information systems for Nigerian schools. I worked as a full-stack developer, developing web applications, and also as a product manager and IT support.

Education

Yaba College of Technology

Higher National Diploma, Computer Science

2011 - 2017
